Delivery & Catering Services

Off-property full-service events will incur a service charge. This charge includes:

- Rental of kitchen and warming and / or cooling equipment needed to transport your food, as well as chaffers, fuel, and glass dispensers for drinks.
- Disposables such as plates for dinner and for salad, faux silverware, cups, and napkins. We use very hard clear plastic plates and cups and white napkins. We also offer other options for an additional cost.
- Attendant charges and service charges for loaders, packers, set-up help, and delivery.
- Cleanup of the food area which is outlined in most venue contracts.
- Venue insurance.

The service charge will be determined after the number of guests, location of venue, and food choices have been provided.

Our catering contract requires a 20 percent NON-REFUNDABLE deposit with the schedule of final numbers and payment. We can provide a contract for your review at your request.

Drop-off style caterings are available at some venues and are very cost-effective options. Both our catering and full restaurant menus can be found at Sammios.biz. A drop-off catering includes packaging and dropping off. We can, however, bring disposable wire rack chaffers and fuel to leave disposable chaffer setups up to three entrees for \$150.00. Drop-off caterings are not an option for venues that require our insurance.

Payments by credit card will include an additional 4 percent fee. Some venues may also require an additional percentage that you will be responsible for paying.

If you have any questions, please feel free to respond by email or give us a call at 919-321-0000 or 919-321-9800.
